

BERING & JAMES ART SERVICES

Bering and James is a wall décor and art services organization that eases the strain of a business in transition. Bering and James assists with the movement, change, placement, purchase, framing and installation of art.

The primary objective of each Bering and James' installation is to help place clients firmly in an environment that represents and communicates the organization's culture, brand, and style. Our services are executed to meet the unique specifications and budget of each client.

ART SALES & LEASING

Bering & James handles all forms of corporate art: decorative originals, posters, abstracts, landscapes and photography. We service clients with traditional and contemporary tastes. Our job is to help ease the discomfort involved with the shifting, changing and additions to wall décor. Bering & James partners with art vendors across North America to serve our clients.

INSTALLATION SERVICES

Bering and James has full time and part time installation professionals whose jobs are to take the "fret" out of wall décor installation. Our installers handle everything from white boards to "me walls," from sculptures and lobby art to posters and valuable investment grade originals. Security mountings are available upon request.

CONSULTATION

Bering & James does not charge for consultation. Our goal is to help your organization establish an amazing environment at a reasonable fee for the products and services we provide.

SPECIALTY PROJECTS

Bering & James has the experience and talent to assist in specialty projects designed to enhance an environments function. B&J is positioned as a complete source and solution for specialty art projects designed to establish a complete and cohesive identity for your organization. These projects include, but are not limited to the installation of display walls, logo production and installation, specialty printing and lobby displays, plexi printing and installations, photography printing, framing and installation, indoor and outdoor sculpture, and light boxes.

FRAMING SERVICES

Often, the best way to "gloss and update" an art installation during transition is to reframe existing artwork and posters. Our framing is professional and affordable and we can offer a very quick turnaround when necessary.

TRANSPORTATION & TEMPORARY STORAGE

During business transitions it is often the case that temporary storage of wall décor is necessary as other aspects of the moves are being coordinated. Bering & James can handle the transportation and temporary storage of corporate art.

CATALOGING

Bering & James offers inventory and cataloging services to locate and track a client's art collection.

PRIVATE EVENTS

Bering & James is an elegant and unique backdrop for any occasion. We can help your party come alive with the energy and beauty of original art. Previous events hosted in our 3500 sq. ft gallery space have included seated corporate dinners, happy hours, wine tastings, weddings and receptions, gala kick-off events, rehearsal dinners and just about any kind of gathering that benefits from an open, easy, beautiful gallery setting.

RESOURCES

Bering & James alliances include local and national artists and art galleries, graphic and art printers, framers, art brokers and related organizations to assist in the development of product and service to fit each client. Our in-house operations include a photographer, 2 mixed media artists and selected gallery artists which allows our staff to access affordable original art for clients. B&J's nearly 10 years of experience in art search, development, placement and related services provides our clients with solutions.
